

Clark Forklift Parts

Clark Forklift Parts - At present, there are over 350,000 Clark lift trucks performing worldwide, and upwards of 250,000 in use in North America alone. With five major lines across the world, Clark is proud to be one of the most expansive companies in the industry. Heavy duty trucks ranging from 1,500lb to 18,000lb capacities, dual fuel, gas, LPG, hand-driven lift trucks, narrow-aisle stackers and electric riders are a few of their specialties.

Clark Totalift, covers more than 120,000 specific parts fabricated for 20 unique brands of forklifts and automated equipment. Your local Clark Supplier is your complete source for availability of all your parts needs offered by Clark Totalift.

Clark has a extraordinary Parts Supply team. The components warehouses are conveniently stationed in Changwon, South Korea and Louisville, Kentucky to ensure exceptional service to both their customers and their sellers. For over 90 years, Clark has surpassed industry standards, being one of the most actively advancing producers. Motivated to offer the highest level of value and service to our users, Clark remains on the cutting edge when it comes to improving efficiency and benefiting performance.

Clark Totalift has a very amazing worldwide support network. With over 550 locations globally, dealer representation in over 80 countries and 230 locations in North America, their high level of commitment to their clients predominates the material handling industry.

By revolutionizing the operator restraint system protection feature, Clark proudly remains a leader of innovation in the industrial equipment and automated forklift industry. This exceptional commitment to safety is currently a customary feature on every lift truck.

Clark has a uncompromising goal to have the No. 1 quality system in the industry which is demonstrated by their dedication to ISO standards. Clark, is the first manufacturer of forklifts and lift trucks to be globally certified with quality standard ISO 9001 in all of its production plants. Also, the ISO 14001 Environmental Stewardship System certificate was awarded to Clark's Korean facility in 2001. This paramount achievement permits Clark to be ready for any number of environmental restrictions, thus placing them in a prevailing market position.

Clark has selected the structure of "Lean Production" at all of its assembly facilities for the reason that this technique is particularly economical and allows for minimal use of resources. Developed to ensure maximum proficiency, this system is designed to discover and acknowledge the most efficient methods for manufacturing facility stewardship. Clark has completed this transition of its Korean plant. COPS which is Clark Optimized Production System, equally focuses on quality of product and services and production efficiencies.

Clark's product engineers and suppliers communicate together to enhance the efficiency and excellence of their products while minimizing costs. The new value engineering program combines innovative product development and provides improved customer support and service within the industry.
