

Rockwell Part

Rockwell Parts - AxleTech International is a premier provider in the world of specialty vehicle drive-train systems and components together with off highway vehicles. The business prides itself on being its customers' chosen supplier. AxleTech strives to meet and exceed their customers' expectations for technology, delivery, quality and service. They believe in working in an environment that supports the highest integrity with empowered teamwork, together with a unyielding pursuit of results.

AxleTech International falls under the umbrella of General Dynamics. They put great emphasis on being an environmentally conscious business and offering a safe atmosphere for their employees to work in. Additionally, they have implemented many programs in the corporation to be able to help convey these values within their business policy. AxleTech gladly shares this policy and welcomes interested parties to offer them with any comments or questions, because they are glad to share and promote this policy with a greater knowledge of their efforts. They are really devoted to preserving and improving the surroundings. AxleTech has an EHS program which not just protects the environment but which also actively protects their workers and neighbors as well.

AxleTech specializes in the manufacture and designing of planetary axles used for both commercial and military applications, which may include anything from construction equipment to airport ground support. They take great pride in being an innovative drive-train solutions provider as well. AxleTech specially designs axles so as to meet certain application demands. They have more than one thousand different axle specs in their current offering. With more than 100+ years of experience and history, AxleTech proudly supplies the most complete solution for whatever of your axle needs. The company is well known in various commercial and military applications. They offer complete axle assemblies for aftermarket replacement needs, along with servicing axle requirements for OE production. Their high mobility ISAS have extra details that can be seen in the "ISAS" product selection.
